Aladdin

POD

The POD just made Mobile Pressure Washing easier!

The tank and Pressure Washer mount together on the POD so they can be picked up simultaneously with a fork lift and transferred from your warehouse to your van, truck or trailer!

Having your whole system mounted together on one frame not only makes it easier to load and unload, but keeps your whole system more secure for safer traveling.

The POD is built of heavy gauge Powder Coated Steel for years of reliable service.

Call a HIGH PSI sales expert today for more details and to order your new POD!

Dimensions: 71"L X 44"W X 48"H
